Renewables driving “fundamental change” as Victoria leaves coal behind (28 June 2019)

Victoria's electricity market is leaving coal behind according to a new report from AEMO.

It warns the state needs to invest in new infrastructure to support renewables growth.

<https://reneweconomy.com.au/renewables-driving-fundamental-change-as-victoria-leaves-coal-behind-41757/>

Cannon-Brookes, “Twiggy” Forrest lead capital raise for world’s biggest solar project

Australia's billionaires are investing in what could be the world's largest solar project.

The project will build a cable from the Northern Territory to Singapore to supply renewable energy.

<https://reneweconomy.com.au/cannon-brookes-twiggy-forrest-lead-capital-raise-for-worlds-biggest-solar-project-57623/>

Australia told to prepare for 'completely new' two-sided energy market

Australia's energy rule maker says the market needs to change to give more power to consumers.

The AEMC says the energy market will become increasingly two directional.

<https://www.theguardian.com/australia-news/2019/nov/14/australia-told-to-prepare-for-completely-new-two-sided-energy-market>

Renewables growth will need to double to meet 2°C climate goal

Global renewables growth will need to double to help deliver a 2 degree temperature increase.

A new report says the industry will need \$10 trillion investment by 2040.

<https://reneweconomy.com.au/renewables-growth-will-need-to-double-to-meet-2c-climate-goal-19118/>

Federal Government hands \$1 billion to Clean Energy Finance Corporation to boost power grid reliability

The Clean Energy Finance Corporation has received \$1 billion extra in funding.

The funds will be for improving grid stability.

[https://www.abc.net.au/news/2019-10-30/clean-energy-finance-corporation-gets-\\$1b-government-funding/11653944](https://www.abc.net.au/news/2019-10-30/clean-energy-finance-corporation-gets-$1b-government-funding/11653944)

Distributed solar to lead global renewables surge, as costs fall another third

A new IEA report expects a 50% jump in renewables investment in the next 5 years.

Much of it will come from distributed rooftop solar.

<https://reneweconomy.com.au/distributed-solar-to-lead-global-renewables-surge-as-costs-fall-another-third-42203/>

South Korea's capital leading the way on rooftop solar

Seoul, South Korea's largest city, is shifting to green energy in a big way following a big public campaign pressuring the government to do so.

<https://planetark.org/news/display/4866>

Tesla Big Battery Expansion To Bring Bigger Benefits

The world's largest operating lithium-ion battery system, Hornsdale Power Reserve in South Australia, is to expand its capacity by 50%.

<https://www.solarquotes.com.au/blog/tesla-hornsdale-expansion-mb1298/>

Why network operators will take thousands of customers off the grid

Increasingly, network operators will be removing remote customers from the grid.

To see what that looks like, WA gives us a clue.

<https://reneweconomy.com.au/why-network-operators-will-take-thousands-of-customers-off-the-grid-70149/>

Victoria bill to lock in 50% renewable target passes through upper house

The Victorian Government bill to boost the state's renewable energy target to 50% by 2030 has passed the upper house.

The bill passed by 25 votes to 14.

<https://reneweconomy.com.au/victoria-bill-to-lock-in-50-renewable-target-passes-through-upper-house-36300/>

Renewables

Australia's main grid reaches 50 per cent renewables for first time

Renewable energy provided more than 50% of power going to the grid on Wednesday November 6. It's the first time renewables have broken through the 50% barrier.

<https://reneweconomy.com.au/australias-main-grid-reaches-50-per-cent-renewables-for-first-time-17935/>

India cancels plans for huge coal power stations as solar energy prices hit record low

India has cancelled nearly 14 GW of planned coal fired power.

It comes as the price of solar hits new lows.

<https://www.independent.co.uk/environment/india-solar-power-electricity-cancels-coal-fired-power-stations-record-low-a7751916.html>
